

Fellowships, one of ISPA's Global Initiatives, are provided to assist individuals from developing economies to attend an ISPA Congress. Applications are reviewed by a committee and recommendations are then made to the Board of Directors. This year the committee was chaired by Claudia Toni and included David Baile, Géza Kovacs and Anthony Sargent.

For the NY'09 Congress, 25 applications were received of which we were able to fund 7. Fellowships may include, travel, accommodation, visa expenses, complimentary registration and one year's membership in ISPA. We would like to thank the individuals and organizations that support this important program—they are listed in full on page 36 of your program.

The 2009 New York Fellowships were awarded to the individuals pictured on the right.

ROYSTEN ABEL
Delhi, India

KAREN JAYNES
